

400765C 24Seven Vodka

Pack Size: 6 X 70CL

Details: Local wheat and water combine in our seven day fermentation process to create maximum character and mouth feel. Multiple distillations are followed by a 24 hour filtration process through the most porous of carbons, coconut shell carbon. This crafts a spirit of exceptional purity and taste. With soft cream soda, light toffee and subtle biscuit notes, we recommend you simply serve straight from the freezer or over ice.
